

GCD of the 2 numbers

Fibonacci Series up to the n term

Prime Number

Nth fibonacci number.

Strong Number

Reverse the number

Convert Decimal to Binary

Palindrome String

Sum of all prime numbers in a range

Prime Factors

Perfect Square

Reverse the string using recursion

Armstrong Number

Greatest among three numbers

Palindrome Number

Convert binary to decimal

Second greatest among three numbers

Binary number into octal number

Circumference of a circle

Print their index else print -1.

Prime Factors

Decimal number into octal number

GCD of the array elements

arc length of a circle

LCM of two numbers

Smallest number from the given numbers

LCM of the array elements

Search for a number in an array

Sum of digits until a single digit

The power of a given number

Reverse order of fibonacci series

Length of the string

Prime numbers from given range

Find simple interest

Delete the vowels in the string

Encipher the given character

Change the case of the given alphabet

Print their index else print -1.

Temperature in Centigrade and convert to Fahrenheit

Program to add 2 matrix.

The unique elements in the array.

The unique elements in the array.

Duplicate elements in the array

Vowels, Consonants, Uppercase

Segregate 0's on leftside and 1's on rightside in the given array

Area of the circle

Two elements in the array whose sum is "s"

String Transformation

Character is a vowel or consonant

Highest frequency character in a string

Find the maximum element in an array

Replace Multiple Consecutive occurrence

Hypotenuse of right-angled triangle

Factorial of a number

Leap year Perfect Number

Sort Strings

String is rotated or not

Remove duplicates from sorted array

Subset of size 3

missing number

Decrypt ceaser shift

Inserting element in-between an array

Word length

Frequency of an alphabets

Missing character in alphabet

Replace the sub string
